SMC Product(s) China Compulsory Certification (CCC) Applicability Evaluation

This letter is to certify that the products other than those listed in Table 1 and 2 are not subject to the Compulsory Certification Item List published by the General Administration of Quality Supervision and Inspection and Quarantine of the People's Republic of China (AQSIQ), and are permitted to be exported, distributed and sold to/in China without certification or application for exemption.

The SMC products applicable to this certification are only switches with a rated voltage of 36VDC or more listed in Table 1. However, the applicable switches may be permitted to be exported, distributed and sold to/in China using their standard part numbers without prefix "3C" if they are assembled to equipment as a component or enclosed with an actuator in the packaging. Please confirm by yourself with the Inspection and Quarantine of the People's Republic of China in the export region, with regards to necessity of certification for each type of your equipment.

[Explanation of symbols in the list]

- The mark " * " stands for any number of additional alphanumeric characters or symbols.
- The mark " / " is used to separate one product number from another
