To Whom It May Concern:

Notification Regarding the Aftermath of the 2016 Kumamoto Earthquake

Firstly, we wish to offer our sincere condolences to the victims and the families of those deceased due to the disastrous earthquakes and continuing aftershocks since April 14, 2016.

We would like to explain the affects of this earthquake to our current operations with the following information.

1. Damage Situation:

(1) Casualties

We have had no casualties amongst our employees.

(2) Sales Office Situation:

We have had no serious damage to our sales office closest to the disaster area that would affect our operations.

2. Product Supply:

While our company does have suppliers within the disaster areas, our company has secured stock of these supplies. Therefore, there will be no affect on our supply chain. It should also be noted that we will continue to make every effort to secure a stable supply of products to our customers.

3. Future Plans

Due to the fact that the earthquakes in the area are continuing, the situation may change. If the situation does change, we will endure to offer the latest information as soon as possible.

Sincerely
