- * Since the lock section for the CLS series is normally replaced as a unit, replacement seal kits are for the cylinder section only.
- ** Seal kits are sets consisting of items 60, 62, 63, 64, 65 and 67, which can be ordered using the order number for each cylinder bore size.
- * The seal kit includes a grease pack (∅125 to ∅160: 40 g, ∅180, ∅200: 50 g, ∅250: 60 g).
Order with one of the following part numbers when only the grease pack is required.
Grease pack part no.: GR-S-010 (10 g), GR-S-020 (20 g)
- * As for the center trunnion type, it is very difficult to adjust the position of the trunnion bracket and the center of the axis.
Therefore repair at SMC is recommended.
